² Inst. de Física, Universidade Federal do Rio Grande do Sul, 91501-970 Porto Alegre, Brazil

³ Institut Néel, CNRS-UJF, BP 166, 38042 Grenoble Cedex 9, France

This is a template for abstracts submitted to Bernard Coqblin Memorial Symposium.

Abstracts, typeset using Times or a similar font in 12 pt size, should fit on one single A4 page. They can be prepared using LaTeX, MS-Word, or your preferred word processor.

Generate a PDF file from the LaTeX or MS-Word file on your computer and submit it through the BCMS 2013 homepage (<http://bcms2013.sciencesconf.org>). Its size should not exceed 3 MB.

Please do NOT submit the LaTeX source or MS-Word file.

One color figure can be included. The online-version of the abstract will be displayed in color on the conference webpage but, at present, we plan to have the abstract booklet printed in black-and-white only. Therefore, if you include a color figure in your abstract, please make sure that it will remain legible in the printed document.

Finally, you can add acknowledgements and/or references. An example of the reference style is as follows [1].

[1] C. Thomas et al., J. Phys. Conf. Series 273 (2011) 012028.

Figure 1: Caption to Fig. 1 comes here.
