

BERNARD COQBLIN MEMORIAL SYMPOSIUM

Explorations and insights into the world of strongly correlated electrons in solids

5-6 September 2013

Laboratoire de Physique des Solides, Orsay - France

Kondo physics in bulk materials and nanostructures
Frustrated and disordered magnetic phases
Magnetic semiconductors and oxides
Transport in magnetic systems
Superconductivity
Organic materials
Thermoelectricity
Heavy fermions
Actinides

Organising committee

Anadi Bhattacharjee

J. Roberto Iglesias

Anu Jagannathan

Claudine Lacroix

Jean-Michel Mignot

André Thiaville

Kang Wang

contact: bcms2013.lps@u-psud.fr
